

WRA Ltd Management Board Profile

Peter Guy

Born in Wensleydale's neighbouring dale, Swaledale, Peter has lived all his life within one mile of the village of Muker. He was educated at Muker and Richmond Schools and following a year's engineering course at Cleveland College of Technology, Redcar in 1962, started his working life as an apprentice motor mechanic at a local garage, progressing to Parts and Workshop Manager. Some forty-four years later, he still works part-time for the same company!

Peter became involved with the Railway when he responded to an appeal for volunteers to drive the small steam engine, Pilgrim. He is now employed by WR plc as a guard, driver and duty Operations Manager and is a member of the team running the successful Driver Experience courses.

In 2005 Peter was appointed to the committee of the WRA and became a Board member of the Wensleydale Railway Association Ltd on its incorporation in 2006.
